CHASE THE 8

EVENT INFORMATION

WHAT VEHICLES CAN ENTER?

Open to all 4 wheeled vehicles, however you must be able to run back-to-back over 9 rounds of racing – no time for cool down – you must return to the staging lanes after each round you win (or buy back) to get ready for the next round of racing.

WHAT DOES BUY BACK MEAN?

If you lose in either the 1st round or 2nd round of racing you will be able to Buy Back into the field and continue racing.

There will be a pop-up tent located in the pit area near the return road. This is where you will be able to Buy Back into the racing for a shot at the \$8,000 grand prize. Buy backs are not allowed after Round 2.

For competitors eliminated from the event, we may offer “grudge match” racing if there is spare time in the schedule to give you even more runs down the drag strip.

WHAT IS 'DIAL YOUR OWN' HANDICAP RACING?

Dial Your Own Handicap means just that, you write your own Handicap (the time you think you can run) in your car. This time determines your handicap. For example, if you dial in at 13.50 and your opponent dials in at 12.50 then you will receive a 1 second head start. The trick is to win the race, without going faster than your “dial in” time. If you break your handicap time, you will lose that round.

If any car ‘red lights’ I.e. Jumps the start, they will be eliminated.

If any car crosses the centre line prior to the finish, they will be eliminated.

Officials in the staging lanes can help you if you are not too sure, so please ask as we are here to help you, just make sure you have your timecards with you.

Thank you for taking the time to read this information, we trust you will have a great day out with your car.

When you leave the venue, please take care on your way home and stay safe on the streets.

Thank you for racing at Perth Motorplex.
